

WORKSHOP

Only 30 seats available

Becoming a

HIGH RELIABILITY ORGANIZATION

Leadership Development & Human Factors Focus

What is an HRO?

A High Reliability Organization is an organization that has succeeded in avoiding catastrophes in an environment where normal accidents can be expected while achieving its mission.

What will you learn?

This one-day workshop is designed to teach the principals and practical application of HRO Leadership and Culture. We will focus on refineries and chemical processing plants.

Who should go?

Oil, gas and chemical processing operation leaders who want to learn more about how to build an HRO culture.
