

Workshops

Fast, practical learning for leaders & crews.

Hands-on, case-based sessions that turn HRO principles into daily leadership and operational behaviors—short, practical, and built for the realities of operations.

INTENDED FOR

- Executives, supervisors and cross-functional teams
- High-risk operations needing shared mental models

EXPECTED OUTCOMES

- Better decision-making and speaking-up behaviors
- Lift in safety, quality and engagement leading indicators
- Managers equipped with actionable playbooks

WHAT'S INCLUDED

- 90-min to full-day formats (virtual or on-site)
- Real-world case studies and simulations
- Real-world case studies and simulations

POPULAR TOPICS

- CARE Foundations (HRO Leadership Behaviors)** - Communication, Accountability, Responsibility, Engagement in daily leader routines.
- High-Stakes Decision-Making & Human Factors** - signal detection, cognitive traps, brief/debrief discipline.
- Learning Teams & Just Culture** - turning events and near-misses into systematic improvements.
- Visual Management & Tiered Daily Control** - KPI trees, stand-ups, problem-solving cadence that moves SQDC.
- Work Management Excellence** - planning, permit-to-work, shift handover; closing the “last 10 feet” gap.
- Incident Review, RCA & Effective CAPAs** - evidence, ownership, close-out that prevents repeats.
- Crisis / Turnaround Readiness** - plan-run-recover: roles, comms, decision rights, drills.
- OEMS Design, Simplification & Sustainment** - governance, standards, assurance that people actually use.
- Psychological Safety & Speaking-Up Behaviors** - leader practices that surface risk early.
- Audit Readiness & Recovery** - audit-ready routines and response tactics that stick.
